

ENVIROBARRIER™

A NEW ERA IN COST-EFFECTIVE,
SUSTAINABLE PACKAGING

Packaging Partners since 1956

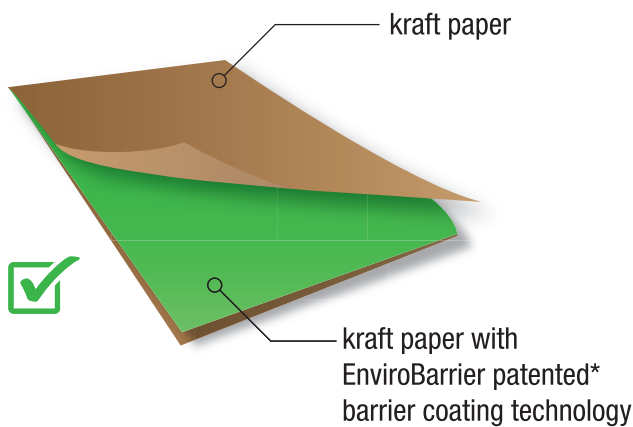

ENVIROBARRIER™

EnviroBarrier is the first 100% recyclable and 100% biodegradable & compostable paper sack for cement, industrial powders and foodstuffs. It is the moisture-resistant environmentally friendly alternative to standard paper sacks containing polyethylene film.

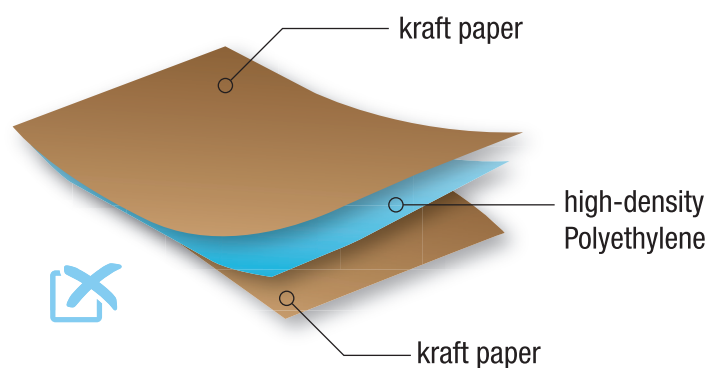

ENVIROBARRIER paper sacks have two layers of kraft paper. One layer treated with an innovative coating replacing the need for a high-density polyethylene layer. Full-width micro-perforations added to the coated kraft paper ensures high deaeration rates for improved fill speed while maintaining enhanced moisture resistance.

ENVIROBARRIER

STANDARD PAPER SACK

THE ENVIROBARRIER ADVANTAGE:

Reduced resource use & waste to landfill

Improved moisture resistance for extended shelf life

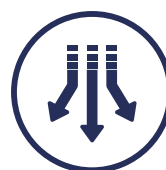

100% Recyclable, biodegradable & compostable

Suitable for industrial & food industries

Available in bleached & natural paper

Improved customer packing speed

* AUS Patent No. 201221503, NZ Patent No. 598695

CSIRO DISINTEGRATION TEST PAPER STAGES

Day 1

Day 14

Day 28

Day 84 (residual compost)

CSIRO RESULTS FOR BIODEGRADABILITY AND ECOTOXICITY

EnviroBarrier was evaluated according to Australian Standard AS4736, and met the performance requirements for:

- **Ecotoxicity**
- **Characterisation**
- **Disintegration**
- **Aerobic Biodegradability**
