

## Quality Policy

Pope Packaging is a leading Australian manufacturer of flexible and textile packaging products designed to suit a large range of industrial, commercial and retail applications.

Pope Packaging is a family owned business based in Australia, producing paper sacks, flexibles and textiles that create an image of functionality for our customers in Australia and overseas. Pope Packaging aims for operational excellence through teamwork, continual improvement processes and systems, a customer focused culture and the tailoring of packaging solutions to our customers' needs.

Pope Packaging is committed to providing a professional service to our customers and we ensure our people are effectively trained in the tasks they perform. Our employees strive to ensure we get the job done right, on time and at the correct price.

In order to assure the quality of our product and service, Pope Packaging has implemented a Integrated Management System based on the Australian/International Standard, ISO 9001:2015 and HACCP. The Integrated Management System formalises procedures to ensure we comply with all legislative and regulatory requirements and meet customers' needs.

The Integrated Management System facilitates continual improvement - our quality/business objectives and Integrated Management System are regularly reviewed through internal and external audits, formal management review meetings and monitoring of objectives through the Profit Delivery Program.

Management fully endorses this Quality Policy and the Integrated Management System that has been implemented.
